Velebil J., Lepší M., Nosková J. & Lepší P. (2022) Taxonomic assessment of *Sorbus* subgenus *Aria* in the Malé Karpaty Mountains. – Preslia 94: 305–334.

Supplementary Table S4. – Average values of sample/standard ratio, estimated ploidy level and coefficients of variation (CV) measured by flow cytometry for each taxon.

Taxon	***S. aria***	***S. collina***	***S. danubialis***	***S. petraea***
Number of individuals analysed	27	36	17	21
Average sample:standard ratio	1.23	2.49	2.50	2.51
Average CV of the sample	3.38	2.71	2.52	2.09
Average CV of the standard	2.30	1.94	1.69	2.01
Estimated DNA ploidy level	2n~2x	2n~4x	2n~4x	2n~4x
